

My name is Quentin and, as an engineering and architecture student, I'm willing to find an internship in which I could use both the technical knowledge and the designing force I received during my formation. I'm willing to join an architecture team during this internship, in order to develop my skills and elaborate my career goals. I'm available from April 2017 to September 2017.

QUALIFICATIONS

Equivalent of a 3rd year student in a prestigious engineering school - Since 2015
ECOLE CENTRALE DE NANTES - Nantes (44)

Ba(Hons) in Architecture leading to a master degree in 2018 - Since 2011
ECOLE NATIONALE SUPÉRIEURE D'ARCHITECTURE DE NANTES - Nantes (44)

French equivalent of High School Diploma passed with distinction - 2008/2011
LYCÉE PRIVÉ ST JOSEPH - Machecoul (44)

SKILLS & INTERESTS

French
Native language

English
Fluent (TOEIC 965)

Spanish
Working knowledge

Chinese
Basic spoken knowledge

ART -
Because both cinema & architecture fascinate me, I completed a thesis about **how cities use architectural destructions in the movies as a urban marketing tool.**

SPORTS -
I've practiced karate for 10 years and now take part of a competitive student volleyball team.

CULTURE -
I tried to travel around Europe as much as possible, because there is nothing more inspiring than the discovery of other cities' architecture and urbanism.
